Education

C V Raman Global University, Bhubaneswar

Sep 2020 – jun 2024

Bachelor of Technology in Computer Science and Information Technology | Coursework: OOP, Data Structure

Skills

Programming Languages: Kotlin, Java, C#, Python, SQL, JavaScript

Android Development: MVVM Architecture, Android Jetpack Components, XML Layouts, RecyclerView, Navigation Component, ViewModel, LiveData, Room Database, Material Design, Firebase, REST API Integration,

Tools & Technologies: Android Studio, IntelliJ IDEA, Visual Studio Code, Git, GitHub, Postman, Maven, Gradle, Spring Boot, .NET (Basic)

Core Concepts: OOPs, Data Structures, SDLC, Agile Methodology, Debugging, APK/AAB Generation, Application Signing, MySQL, PostgreSQL, HTML, CSS

Experience

Software Developer, Hy-Vee — HST Global

Bangalore, India | Dec 2025 – Jun 2026

- Developed and maintained Android applications using **Kotlin, XML, Android Jetpack Components, and MVVM Architecture**.
- Implemented new features, resolved bugs, optimized application performance, and integrated **REST APIs** and Firebase services.
- Collaborated with cross-functional teams in an Agile environment, participating in development, testing, deployment, and code review activities.
- Utilized **Git/GitHub** for version control and gained exposure to **C# and .NET** technologies through development and support tasks.

Software Engineer Intern, OneFin

Bangalore, India | Jul 2025 – Nov 2025

- Learned and worked on Android application development using **Java, Kotlin, and Android Studio**.
- Designed and developed **UI screens** for loan-related modules such as application and repayment.

E-Commerce Website Design, Internship Studio

Odisha, India — Jun 2023 – Jul 2023

- Created a basic e-commerce website using **HTML, CSS, and JavaScript**.
- Learned the basics of web design and front-end development.

Project

Smart Expense Tracker App

Bangalore, India | Jul 2025 – Oct 2025

- Developed an Android application using **Kotlin** to track and manage daily expenses with an intuitive user interface.
- Implemented **Material Design** components and core Android concepts including activities, layouts, and user input handling.

FlightEase – Flight Booking Application [Repo Link](#)

Bangalore, India | Apr 2025 – May 2025

- Developed a flight booking application using **Java, Spring Boot, MySQL, and REST APIs**.
- Implemented booking modules and applied layered architecture, validation, exception handling, and API testing using **Postman**.

An Autonomous Smart Phone Enabled 2-D Image Based Oral Cancer Detection and Classification using Customized CNN Model [Repo Link](#)

Odisha, India | Apr 2023 – Feb 2024

- Developed a CNN-based model to detect oral cancer from smartphone images using Python and TensorFlow.
- Worked on image preprocessing and evaluated model accuracy, precision, recall, and F1-score.

Certifications and Awards

• Java Full Stack Developer Certification – JSpiders

Jun 2025

• Published Research Paper – Springer, CIPR 2024

Mar 2024
